Randolph Building

Sir:

As a supplement to the Amendment filed May 22, 2007, applicant is attaching a verified English-language translation of Korean Patent Application 67669/2002, filed November 2, 2002. As stated in the response filed May 22, 2007, the Korean priority document supports these rejected claims. Thus, the outstanding rejection should be withdrawn (as stated in the prior response) since Lee is not prior art to the present application under 35 U.S.C. §102(e). Additionally, Van Der Wal and Thompson do not teach or suggest all the features of each of the independent claims of the present application. Thus, the outstanding rejections should be withdrawn at least for this reason.

Serial No. 10/696,997

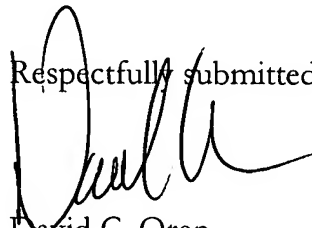

Docket No. P-0588

Each of the dependent claims depends from one of the independent claims and therefore defines patentable subject matter at least for this reason. In addition, the dependent claims recite features that further and independently distinguish over the applied references.

In view of the foregoing, it is respectfully submitted that the application is in condition for allowance. Favorable consideration and prompt allowance of claims 1-30 are earnestly solicited. If the Examiner believes that any additional changes would place the application in better condition for allowance, the Examiner is invited to contact the undersigned attorney at the telephone number listed below.

This paper is a supplement to the previously filed response. However, if any extension of time fee is due, then a petition for an extension of time under 37 C.F.R. 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this, concurrent and future replies, including extension of time fees, to Deposit Account 16-0607 and please credit any excess fees to such deposit account.

Respectfully submitted,
